REMOTE CONTROL OPERATION

To operate the Boombox with the remote control, point the remote handset at the remote sensor on the front panel and press the appropriate button on the remote handset.

The remote works best within a range of 6 ~ 7 meters from the front panel and on an angle of 30 degrees. If the remote operation is unsatisfactory or stops working entirely replacing the remote batteries, then try reducing the room lighting conditions.
REPLACING THE BATTERY

- The remote control includes one CR2025(3V) lithium battery.
- To replace the battery, gently push the clasp to the right direction accordingly to the instructions shown on the remote and then pull out the battery compartment. Take the drained battery out and install a new lithium battery(CR-2025) in the compartment with the positive polarity facing upwards. Then push the compartment back to its position and a "click" sound will
POWER SOURCE

This Boombox is designed to be operated on AC/DC.

AC OPERATION
Plug the smaller end of the supplied AC power cord into AC socket on Boombox and the plug into a mains power socket. The batteries will be automatically disconnected. This Boombox is designed in Switched-Mode Power Source with voltage range from 100V to 240V.

DC OPERATION
Open the BATTERY COMPARTMENT DOOR. Install 8pcs UM-1/D size batteries (not included) into compartment. Please follow correct polarities as indicated.

NOTE: when using battery, take off the AC cable from the Boombox.

CAUTION:

period of time. Batteries contain chemical substances, so they should be disposed of in the correct manner.

Specifications are subject to change for continuous improvement, we reserve the rights to modification without prior notice.

Disposal Information

IMPORTANT INFORMATION FOR CORRECT DISPOSAL OF THE APPLIANCE IN ACCORDANCE WITH EC DIRECTIVE 2002/96/EC
At the end of its working life, the appliance must NOT be disposed of as urban waste. It must be taken to a special local authority differentiated waste collection centre or to a dealer providing this service.
Disposing of a household appliance separately avoids possible negative consequences for the environment and health deriving from inappropriate disposal and enables the constituent materials to be recovered to obtain significant savings in energy and resources. As a reminder of the need to dispose of household appliances separately, the product is marked with a crossed-out wheeled dustbin.
